EDUCATION

AUGUST 2017 – JUNE 2021

OIL CITY, PA, 16301

VENANGO CATHOLIC HIGH SCHOOL

AUGUST 2021 – MAY 2025 (UNDERGRAD)

ERIE, PA, 16546

MERCYHURST UNIVERSITY

MAJOR STUDIES: CYBER SECURITY

MINOR STUDIES: GRAPHIC DESIGN

WHAT I'VE LEARNED

- As part of my major study, I've taken 3 programming courses in python. During these courses I've learned about variables, assignment, loops, conditions, functions, classes, dictionaries, arrays, linked lists, stacks, queues, regular expression, trees, and graphs. We used these skills to create a simple game, manipulate dictionaries and lists, analyze PDFs, web scraping, and work with Twitter API.
- I've also learned about the basics of cyber security. Some learning points include physical security, access control, authentication, risks, threats, vulnerabilities, confidentiality, cryptography, encryption and decryption methods, firewalls, protocols, black, grey, and white hat hackers, and different types of attacks (DOS, DDOS, SYN Flood, BOTNET).
- Some other topics I've learned about are the basics of computers. This includes about different operating systems, digital logic and math, hardware and software used by a computer, how computers communicate, and how networks work.
- Through my minor study, I've taken one course on Web Design, and I plan to take two more courses. I've learned so far about HTML and CSS and how to use these languages in Adobe Dreamweaver to create basic websites.
- I've learned how to use Adobe products such as Photoshop, Illustrator, and InDesign to create graphics as part of my minor study.

SKILLS

- Knowledge with Python, HTML, and CSS programming languages
- Creating graphics in Adobe Photoshop, Illustrator, and InDesign
- Work containing customer service / interactions

- Excellent time management
- Adept using social media

WORK EXPERIENCE

JULY 2021 – PRESENT
CRANBERRY, PA, 16319

FOOD / SERVICE CHAMPION, TACO BELL

My responsibilities in this role included customer service, working with a team, cleaning, organizing, preparing and serving food, and tech work on computers and registers.

VOLUNTEER WORK

AUGUST 2022 – NOVEMBER 2022
ERIE, PA, 16546

COMMUNITY OF CARING

My responsibilities in this role included serving food to homeless or people in need of help, working with a team, and cleaning.

VOLUNTEER WORK

AUGUST 2017 – JUNE 2021
VARIOUS LOCATIONS

SCHOOL AND CHURCH FUNDRAISERS

My responsibilities in this role included customer service, working with a team, cleaning, preparing, and serving food.

ACTIVITIES

Some activities I enjoy doing are playing the piano, creating 3D models through software, such as Blender, playing billiards, chess, golf, and bowling, learning new languages with main interests in Spanish, ASL, and Japanese, learning programming languages with main interests in Python, HTML, CSS, and Lua, solving sudoku puzzles, and I have an interest in creating video games.
