Education

AUGUST 2017 – JUNE 2021

OIL CITY, PA, 16301

VENANGO CATHOLIC HIGH SCHOOL

AUGUST 2021 – MAY 2025 (UNDERGRAD)

ERIE, PA, 16546

MERCYHURST UNIVERSITY

MAJOR STUDIES: CYBER SECURITY

MINOR STUDIES: GRAPHIC DESIGN

Work Experience

JULY 2021 – PRESENT

CRANBERRY, PA, 16319

FOOD / SERVICE CHAMPION, **TACO BELL**

My responsibilities in this role included customer service, working with a team, cleaning, organizing, preparing and serving food, and tech work on computers and registers.

What I've Learned

- As part of my major study, I've taken 3 programming courses in python. During these courses I've learned about variables, assignment, loops, conditions, functions, classes, dictionaries, arrays, linked lists, stacks, queues, regular expression, trees, and graphs. We used these skills to create a simple game, manipulate dictionaries and lists, analyze PDFs, web scraping, and work with Twitter API.
- I've also learned about the basics of cyber security. Some learning points include physical security, access control, authentication, risks, threats, vulnerabilities, confidentiality, cryptography, encryption and decryption methods, firewalls, protocols, black, grey, and white hat hackers, and different types of attacks (DOS, DDOS, SYN Flood, BOTNET).
- Some other topics I've learned about are the basics of computers. This includes about different operating systems, digital logic and math, hardware and software used by a computer, how computers communicate, and how networks work.
- Through my minor study, I've taken three courses on Web Design. I've learned about HTML and CSS and how to use these languages in Adobe Dreamweaver to create basic websites, as well as using Bootstrap and Wordpress
- I've learned how to use Adobe products such as Photoshop, Illustrator, InDesign, After Effects, and Dimens to create and manipulate graphics as part of my minor study.

Cyber Security Skills

 Linux

 Wireshark

 Packet Tracer

 Nmap

 Metasploit

 Snort

Other Technical Skills

 Python

 Lua

 HTML & CSS

 Bootstrap

 WordPress

 Adobe

 Blender

 Game Dev

 FL Studio

Certificates

Official ICS2 Cyber Security (CC) online self-paced training - 1M
